

CONJUNCTIVITIES / EYE INFECTION

Dear Parent,

You are aware that conjunctivitis/eye infection is spreading all over Mumbai.

You are requested **NOT to send** your ward to school for examination, submission or project work if he/she is suffering from eye infection / conjunctivitis.

This is highly contagious and spreads fast. It may affect other students and staff members.

Your ward will be exempted on medical grounds from examination. Assignments or project work can be submitted later.

You may send your ward only when he/she has completely recovered.

Please submit a medical certificate to the respective class teachers or section in charge

Thanks & Regards,

Mrs. Madhu Wadke

Principal
