

Information Circular and Consent Letter

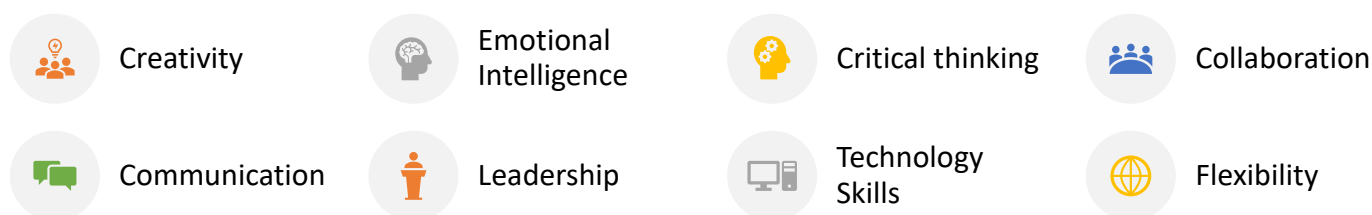

The F1 in Schools India Primary STEM program is a fantastic, innovative project that brings the concept of the F1 in Schools Challenge into the Primary/ Elementary School classroom, for students from 6-11 years/ Grade 3 to Grade 5 to engage in designing, analyzing, making, testing, and racing their own model racing cars.

Objectives of F1 in Schools India Primary are-

- Develop invaluable interpersonal skills
- Put your teamwork abilities to the test
- See your ideas and designs come to life
- Demonstrate good sportsmanship
- Identify areas for future improvement
- Have loads of fun while learning life skills

F1 in Schools India is driven on STEMplify platform. This platform comes complementary with F1 in Schools India participation. Offer valid for 2024-25 registrations ONLY.

STEMPLIFY will empower the students with following Skills
